

Jacob's On-line

Catalog# XFR0204E

25VA
 110/120 or 220/240 Volt input
 50Hz or 60Hz
 Dual 4.5 Volt Outputs
 Series connected secondaries:
 9 volts, 2.8 amps max rated
 output
 Parallel connected secondaries:
 4.5 volts, 5.5 amps max rated
 output
 Wt: 1 lbs 12 oz
 dimensional Drawing (coming)

USA shipping: \$13.00 is automatically charged for shipping for each transformer (excess for more than 1 transformer ordered will be refunded).

International shipping for 1 to 4 transformers: For Canada, add an additional \$35.00 on the shipping page, all other countries add an additional \$66.00 on the shipping page.

Price: \$13.50 [Add to Cart](#)

Save on shipping when ordering the dimmer and transformer together below. Both ship for the single \$11.00 shipping charge.

Transformer & Dimmer
Price: \$20.50 [Add to Cart](#)

Chart to the left shows maximum and minimum wire lengths for a given gauge based on 800F foam cutting temperature. Standard cutting temperature is 600F but higher temperature was used to allow for some adjustment in temperature preferences. Wire shorter than the max will require lower voltage. Too high a voltage on shorter wire may overload and destroy the transformer.
