

## Jacob's On-line or Local Hardware Store

Catalog# PC5

### Power Cord

3-prong plug  
stripped wire leads opposite end  
5 foot length

*When plugging this International power cord into a USA outlet, the wire color coding becomes:*

Blue = hot  
Brown = neutral  
Green with yellow stripe = ground

(this is because the USA hot side is on the opposite side from what it is in an international plug)

**USA shipping:** \$2.60 is automatically charged for first class USPS shipping for each fuse holder, excess shipping for multiple items ordered will be refunded. For example, order fuses with fuse holder and transformer and the fuses and fuse holder shipping will be refunded.

**International shipping:** add an additional \$11.00 (\$7.00 for Canada) at the bottom of the [shipping page](#), multiple items may require more so please contact us for shipping on multiple items.

**Items ordered with transformer:** Items ordered with transformer(s) can normally be shipped with the transformer with no additional shipping so shipping added automatically for these in that case will be refunded.

**Price: \$4.50**
